HIT PRIORITIES

First *unit* Step Loss *must be* from the Point Unit!

vs Attacker	vs Defender
☒ **1: First Hit** mandatory Step Loss against an asset or the Point Unit	☑ **1: First Hit** removes field works (if present)
☑ ☑ **2a: Attacker Chooses to "Abort Attack"** all units become disordered; no further losses	☑ **2a: Avoid 1 Hit of Arty Fire** *only if* at least one unit is good order or recovering *then* all units become disordered
☒ ☒ **2b: Attacker Chooses to "Continue Attack"** all remaining hits are Step Losses [assets and/or units]	☑ **2b: Avoid 1 Hit of Ground Fire** *first* all units retreat *then* good order & recovering units become disorderd
☒ = Absorb or Avoid ☑ = Step Loss **Hit Priorities** *(see 6.41 & 6.42)*	☒ ☒ **3: Additional Hits** all remaining hits are Step Losses [assets and/or units]

COMBAT RESULTS

a) Follow the Hit Priorities sequence above (per 6.41 & 6.42)
b) Apply step losses and disorder results
c) Determine final results per below; in ALL cases:
- surviving assets are moved to the Used Box
- any units in areas no longer contested return to hidden status

Area Remains Contested – Neither side eliminated; units remain face up

Defender Retreated – Surviving Attacker Unit(s) gain control of the area

Attacker Eliminated – Surviving Defender Unit(s) maintain control of the area

Defender Eliminated by
- **Artillery** – Exploitation opportunity
- **Ground Fire with at least 1 Excess Hit** – Exploitation opportunity

Exploitation – Armor Class units must pass a morale check (SN +2 at Night); exploitation cannot happen during a River (Crossing or Air) Assault

DISORDERED/UNSUPPLIED

Standard Effects (9.33)
- Cannot initiate combat
- SN modifier when firing and for morale checks
- Can only move 1 area, cannot build field works, cannot be placed in reserve

Additional Effects – Unsupplied (9.34 & 9.4)
- Assets, Special Actions, engineering functions and friendly events cannot be played for such units / areas
- May not recover from disordered status
- Must make morale check during friendly Supply Phase: Failure results in disordered result, a step loss and possible surrender
